

## **Conflict Resolution: Handling Conflict Constructively**

### **Summary**

This four-module course is designed for people who want to develop their ability to handle conflict more effectively. It uses specific techniques to engage with people in disagreement to discover the causes of the current conflict and ways to resolve it.

This course is based on our successful Mediation Skills course delivered to housing associations, local authorities, public and private organisations throughout Scotland for over twenty years.

### **What will be expected of me?**

We aim to provide a safe and enjoyable atmosphere for learning. Our style is highly interactive, and we use a lot of small group work, group discussion and role-play. There will be opportunities to bring your own experience to discussions about when and how to use the skills, and time to practise exercises in pairs and small groups. The course covers the causes of conflict, responses to conflict and ways to reduce conflict. This course is not assessed. A specific requirement is that you attend and participate fully for all four modules.

### **Course Objectives**

By the end of the course you can expect the following:

- to increase your awareness of what is happening in a conflict situation
- to share your experience and build on your existing conflict handling skills
- to practise skills in a relaxed atmosphere and get feedback on what worked
- gain confidence in your ability to handle conflict in a constructive way.
